“These are the specific types of evidence we want to present to the American people on the national stage and not allow local politicians to sweep it under the rug,” Miller said.

•

Miller said that evidence could be presented in Congress, which would differ from what the Trump campaign presented in courts over the past several weeks.

He's not showing evidence to get an outcome in the court any more.

Too late for that.

Now he's showing the country why extraordinary measures are about to be taken to defend our republic from an insurrection.

THIS, I believe, is what "gonna be wild" has been about since that first tweet. People everywhere were already going to tune in just to see the crowd of patriots. They're in for a much bigger show, and our proud patriots will be on the front row. Let's see how fast these electors are willing to commit treason on national television with the whole world watching.

Biden would support anti-Israeli efforts, so they'd have a lot of motivation to keep Trump in office. If Trump gets another term we will have Middle East Peace, 100%, for the first time in human history.

Joe Biden could strangle Kamala Harris on live TV and then sniff her corpse and the press would say, “Kamala is still VP,” and the judiciary would say, “we really have no standing in this matter, we’ll leave it up to the legislatures.”

Evidence now is irrelevant. Once Special Operation Commands arrest tens of thousands of traitors evidence will in a blink of an eye matter.

They'll plead ignorance of the law, supervisor commanded them, they weren't aware treason is punishable by death.

They've had more than ample time to come forward and do the right thing. Many will be hanged. I'm betting most will get at least 20 to 30 years and no reduced time either for good behavior.

Yes but with Sztrok, Page, Brennan, Clapper, Corney, McCabe, Roberts, Wray, Mueller, etc., still wandering free as a bird, living high off the hog—to say nothing of elected politicians, who some magic spell (invented by politicians) says can never be punished no matter what they do, because *"political rival"—here's the Order of Operations:

If you present it now, you can void the Election. And still have the option of Executive Action if the evidence is ignored.

If you wait until Jan and evidence is ignored and the vote is certified, you are out of options. Very difficult to undo a Certification.

Except FRAUD cancels the legal validity of everything it touches.

A certification based on fraud is null and void upon its creation. Literally, it is legally null and void.

It's not null and void only after the fraud is "proven". It's already invalid the instant it was created. Proving it is simply demonstrating the fact that it was already void the instant it was created. And Trump's team has more than enough evidence to do that. Hell, we have that much here on tdw.

"Fraud vitiates everything."

Yes, it looks like the Trump strategy is to present the evidence to Congress on Jan 6, and dare them to certify. Which the corrupt Congress will very likely do because the fraud evidence is not irrefutable.

I am even fine with waiting few months for irrefutable evidence to come out such that not even corrupt Judges and Senators can ignore it.

At such time we can remove the illegitimate President and hold new Elections.

10% of "Americans" would sell our country to Xi in a heartbeat for glorious communism. Another 20% would do it just to stick it to Trump.

We have a serious patriotism problem in this country.

I'm starting to think all 50 states might be mostly red. Remember California used to have a Republican governor, and New York used to have Rudy Giuliani as mayor.

It's possible that election fraud happened in lots and lots and lots of states this year.

Just because the liberals like to bully other people, doesn't mean they are in the majority in any state...

If capitol security is against us you in full force the escalation of moving past them will not be something you do without deathly resolve. I've seen people intentionally get arrested trying to get to the Capitol building steps. They had worked it out with security and let them through the line and then arrested them. Capitol security was shoulder to shoulder two deep with submachine guns slung across their chests or in hand. Helicopter was flying over head with a machine gun hanging out. Snipers on the roof.

I bet it will be all the top secret evidence of video, emails and other visible proof we haven't seen that leave NOTHING to be debated. If Congress decides to ignore the fraud after that point, then Trump would have every single person in congress in the same spot, surrounded by angry patriots outside and, I have a feeling, some military folk that are ready for the Insurrection Act. At that point, it would be the only option left.

That's my prediction and I'm sticking to it because it makes me happy.

Edit: Oh, and the 6th is one time these slimy politicians can't take long breaks, only to reschedule another day. There are even time limits on how long they can debate about objections. Beautiful! No more escaping when they're asked tough questions!

Government agencies only investigated fraud to find out how good the evidence is, and intimidate the witnesses. Then they try to cover-up and debunk the evidence through the fake news media.

Release the evidence raw before the propagandists can craft their lies.

Exactly. That's why I think Trump has some people that are completely loyal to him providing that evidence. FBI/CIA can cover up what they discover, but what about the evidence that HIS top secret people gather using means we don't even know about?

From here on out, I need irrefutable evidence that backs up what my government tells me to believe. If they don't provide it, then their word on the subject is just disinformation to distract from the truth and who it implicates. Trump has my trust and loyalty, but the rest lost their "just believe us" card forever.

That's ... not going to happen.

I'm sorry man, but it's not. I'd like it to happen, you'd like it, we'd all like it, but the harsh reality is that isn't going to happen.

This is a pretty decent plan. Trump has 1M+ people in the capitol. That puts pressure on Congress. He riles them up with a speech, then he puts out information that he's held close to the vest, that the media CANNOT ignore, nor can they not cover, because they're going to be covering the rally. Every media organization will be there. Even CNN. Trump is playing them by forcing their hand into covering information on the fraud.

That'll spark a super pissed off uproar and the house and senate will be paying attention. And with in your face, official reports from foreign governments and official briefs from their intelligence communities confirming it, it's really really hard to hand wave away. Trump is going to try to put so much pressure to buckle the senate/house that they'll push the vote into delegations.

It's a good plan. It's a longshot. He wants a ton of people there to discourage congress from double downing. He's using the rally as an intimidation tool. This is like ... the last hand in the poker game. Winner take all. We have to hope that he's got a royal flush.

Plasma cannons firing off from orbit. Chuck Schumer, while masturbating to hardcore man on man pornography in full view of a baby, is liquefied before our eyes.

Felix Baumgartener sky dives in from the Stratosphere, with a t-shirt cannon, shooting off "I Watched The Democratic Party Crumble and All I Got Was FREEDOM from COMMUNISM" t-shirts.

Antifa collectively cries along with BLM, who has now both completely lost all funding.

George Soros, Nancy Pelosi, and the worst Obama are brought out on stage, strapped to hand-trucks. Tomatoes and Lettuce are passed out to everyone in the front row, and the barrage begins; This will come to be known as "The Tossing" and it will be taught in schools for the next millennia.

Mike Lindell ushers a bound and shackled together Bill Gates, Jack Dorsey, and Mark Zuckerberg, stark naked, and buckets of tar and Giza cotton pillowcases full of goose feathers sponsored by My Pillow are brought in by forklift. After they are all tared and feathered, they are hanged by their big toes, upside down until dead.

Donald Trump then cracks open an ice cold Diet Coke, thrown from the crowd by Stone Cold Steve Austin, chugs it, and belches out a war cry that registers 192 decibels. Rudy Giuliani walks on stage holding the Lincoln Bible and Trump places his hand on top, being sworn in for the next 40 years.

Neither Mitch nor Nancy is in charge of the joint session on the 6th, Pence is.

It's possible if the challenge is successful and they break out into the House session that Pelosi can have some fun and games, but the Senate is Republican.

A recent report not yet verified says both the US House and the US Senate both have to vote separately to agree to throw out a State's election.

If this is 4D chess, after all the evidence is presented to the public, the Democrats either have to vote for clean elections or explain for the next umpteen years why they upheld a criminal acts.

Better that Trump gets his 2nd term.

It says that both the House and the Senate have to agree to throw out the slate of electors. If they disagree, Pence is required to count the slate of electors that was certified by the governor of the state.

This is going to be the "real" silver fox move.

As president of the join session, Silver Fox decides how the session goes. (Just like how Nasty Nancy decides how the house goes and what gets put on the agenda)

Pence sets first item on the agenda as going over fraud evidence. If meme magic is real, the evidence will specifically call out certain persons in the very same session that are compromised/illegitimate (with evidence)

You will have moderate dems voting for Trump in the contingent election in the house once it is shown Feinstein, Pelosi, Schummer and others haven't actually won an election in the last 20 years. AOC lost her primary, nearly every house seat that flipped to D in 2018 was illegitimate.

We might even see that Obama/Biden cheated in 2012 and most likely in 2008. HillDawg and Biden cheated Bernie out in 2016 and 2020.

less likely, but I think that this was why Trump's SCOTUS picks didn't vote to hear the TX case. Have you ever known Trump's counter punches to be less than or equal to the original attack? it is always a devastating escalation. 4 more years after a court case will still have an air of illegitimacy...no so much when you get dems voting for Trump in the house/senate.

Show up to DC and get ready to MAGA my dudes.

If you've ever seen these being done in the past, what you'd see is that the VP just reads off a script that is handed to him by the Parliamentarian. I haven't seen anything that says Pence is going to do what he wants and deviate from the script.

That's where you come in.

1 million + rally isn't something that can be ignored and it puts INTENSE pressure on the lawmakers. If Trump has OFFICIAL intelligence reports from other countries that he reached out to that confirm election fraud, he doesn't need the FBI or anyone investigating.

It'd hold more weight if you had a country like Ukraine, Russia, Israel saying 'Yeah. We hacked into the US election and passively watched it get fucked with. We traced the bad actors back to Iran and China in real time. We didn't interfere one way or another, we just watched.' It'd be better if it was from a NATO country, but beggars can't be choosers.

If he had a report like that, with 1M+ people at a rally and all MSM being forced to report on it, the senate/house are put in a really tight fucking spot.

If you ask me, the only way Trump wins based on a Challenge of the Electors from the House and Senate is if it goes into a closed session and Trump lays out all the evidence he has against each and every traitorous congressman.

The problem with this route is that he will be making a deal that all these traitors, if they vote for him, they get away with treason. Which in my view is unacceptable, because they will remain around in order to corrupt the nation again and there will not be repercussions solid enough to cause the fear of God in potential traitors.

From the Highest Senators and Representatives to their lowliest workers to every CEO, large stock holder, and employee of traitorous Media, Tech, corporate or elsewhere, Millionaires and Billionaires who supported traitors, every single last one of them should be identified, investigated, charged, tried in a military tribunal and executed as traitors based upon the evidence.

President Donald Trump's campaign adviser said the team is aiming to present evidence during a potential congressional debate on Jan. 6 if lawmakers in the House and Senate object to states' Electoral College votes.

As of Wednesday, it appears that at least one member of the Senate, Sen. Josh Hawley (R-Mo.), and a number of House lawmakers will object to the electoral votes during the Joint Session of Congress. Hawley announced he would object to the electoral vote, pointing to previous Democratic efforts to do so during the 2004 and 2016 presidential elections. After the objection, an hours-long debate will occur.

Miller said that evidence could be presented in Congress, which would differ from what the Trump campaign presented in courts over the past several weeks.

"We will have a chance in front of the American people, next week to present these cases, all these evidences of fraud," Miller told Newsmax, pointing to a lawsuit filed by Rep. Louie Gohmert (R-Texas) against Vice President Mike Pence earlier this week to prevent him from confirming Joe Biden's electoral victory. Miller told the outlet that the 1887 Electoral Count Act allows the vice president, who is the president of the Senate, to preside over the Joint Session of Congress.

Then, Miller told Newsmax that he hopes at least one senator and representative join together to object to the Electoral College vote, allowing for two hours of debate.

Should that happen, Miller said President Donald Trump's team is seeking to present alleged evidence of voter fraud or irregularities in the Nov. 3 election, including law changes regarding mail-in ballots in Wisconsin, "suitcases of ballots" in Georgia being wheeled out late at night on Nov. 3 in Atlanta's State Farm Center, and being blocked in Arizona and Michigan from inspecting voting systems, alleging that ballots were counted several times.

"These are the specific types of evidence we want to present to the American people on the national stage and not allow local politicians to sweep it under the rug," Miller said.

Weeks ago, Trump's team led by Rudy Giuliani presented a surveillance video from the State Farm Center that showed suitcase-like boxes being wheeled from under a table. It came after election officials allegedly told other workers and poll observers that counting was done for the night.

The Georgia GOP said they received conflicting and incorrect answers and statements from Fulton County officials about what happened on Election Night, and officials later acknowledged that vote-counting went on until the early-morning hours. State election officials, in response to the video, said nothing unusual occurred with the ballot boxes and vote-tabulation process in Fulton County.

Elaborating on Wisconsin, he said, "Article II of the Constitution makes it very clear, the state legislatures, and state legislatures alone, set up the voting systems for each state, the codes and the way they are conducted." He said, "And what we have here is we have over 20,000 ballots that were cast without actually having an application on file, the mail ballots. Wisconsin's very clear, very specific you got to have an application on file."

These rules are passed with likely only a plurality vote of Congress.

These rules can and must be maliable due to this important violation of article IV Section 4 of the Constitution, the guarantee by the Federal Government of a republican form of GOV'T in each state. If Trump's votes are thrown out, proven, and many many more fake votes are given to Biden, proven, well then we have a real real big Constitutional problem.

These congressional rules are separate from and don't have the same weight as the Constitution, where every Amendment needed 2/3rds of the State to pass it.

No.

1.) You can't arrest a sitting member of the house or senate while in session/on the floor.

2.) No ones going to prison. it's difficult enough to prove election fraud. It's even more difficult to prove WHO is responsible.

No doors are getting kicked in. You're there to apply pressure on congress by being there, supporting the president and for forcing main stream media to report the rally and by proxy the evidence Trump wants to present.

That's your function. Plain and simple.
